

**International Max Planck Research School on
Physical Processes in the Solar System and Beyond**

Max Planck Institute for Solar System Research

Technical University of Braunschweig

University of Göttingen

MAX-PLANCK-GESELLSCHAFT

PhD in Solar System Science

A first choice to obtain a PhD degree in solar system research

Research-oriented 3-years graduate program

Training in solar system science, computational physics,

space technology and project management

Successful application is awarded with a PhD fellowship

Application deadline: August 1, 2011
